### Description:

Fine example of Waghenaeer's map of the region between Aberdeen and Bamborough, centered on Edinburgh.

Includes sea monsters, sailing ships, compass rose, decorative cartouche, soundings, anchorages and soundings. Waghenaeer was a Dutch pilot who produced the first set of effective navigational charts, under the title *Spiegel der Zeevaerdt*.

These gorgeous charts, engraved by Baptist and Jan van Doetecum, embody the latest contemporary knowledge of navigation and position finding and set the standard which was followed for more than a century. Waghenaeer's charts are magnificent works of art, which are highly sought after by collectors. An essential map for collectors of the region and the earliest decorative sea chart of the region.
