Description:

Highly detailed regional map of part of Victoria and Tasmania, extending from Port Philip in the East to Mt. Dromedary and Port Dromedary in the Northwest and showing Wilson Promontory, Canal De Kent, Iles, Furneaux and the Northern half of Tasmania. Dozens of early place names. The map predates Melbourne but Arthur's Seat, Port Western and Cape Schank appear, along with extensive notes on the terrain around Port Philip. Many notes throughout Tasmania. Several minor wormholes in the blank sea and bit of misfolding, but still an excellent example of this early and highly detailed regional map. From Vandermaelen's remarkable 6 volume atlas, which if combined as globe gores forms an immense globe. Vandermaelen accomplished the first atlas mapping of the world on a uniform scale. Offered as a pair with #3127 for \$595.00 while both are available.
