**Description:**

Fascinating embellished reproduction of the 1776 edition of the Depot De La Marine's map of the Pacific Ocean, which adds several decorative sailing vessels to the original image.

This fantasy/reproduction was printed on fine paper and at first glance appears to be from the 18th Century, except that the printing style of the ships is not consistent with the remainder of the map.

A fine decorative object, very suitable for framing.

**Detailed Condition:**

Fantasy Map--a modern reproduction of an earlier Depot de la Marine map, with sailing ships added for embellishment.
