Description:

Rare pair of separately issued Coast Survey Charts, showing a section of the James River, from its entrance to West Point.

The maps are exceptionally detailed, including sailing directions, soundings and other fine details.

The first of the charts listed below (*Entrance to King's Creek*) was also issued as part of the Annual Report of the Coast Survey. The second chart (*King's Creek To West Point*) was only issued separately and did not appear in an Annual Report and is now quite rare. We located only the copies in the Virginia State Library, Huntington Library and NOAA.
