### Description:

Scarce early map of Cyprus, from De Belleforest's *Cosmographie*.

In 1544, the scholar and geographer Sebastian Munster published his *Cosmographia*, one of the most important and influential works of its type in the 16th century. In 1575, the Paris publisher Francois de Belleforest issued a French edition of the work which included this fine woodblock map of Cyprus.

Rather than reproducing Munster's map, Belleforest compiled an entirely new map on a much larger scale, based in part on a map of 1535 attributed to Giovanni Domenico Zorzi. Below the map is a lengthy description of Cyprus, which continues on the verso of the map.

The map is quite rare on the market. We locate only a single example, which appeared at a Reiss Auction sale in 2001.

### Detailed Condition:

Narrow left and right margins.
