### Description:

Rare double hemisphere map of the celestial heavens, which appeared in Boisseau's *Tresor des cartes Geographiques*, published in Paris.

The map provides a fine detailed treatment of Northern and Southern Hemispheres, based upon the Observations of Tycho Brahe.

The map is extremely rare, with no appearances in AMPR in the past 30 years. We note only 3 examples of any of the maps from Boisseau's *Tresor des cartes Geographiques* have appeared in AMPR in this time period (World Map -1992; America-1993; Cyprus-2004).

### Detailed Condition:

Trimmed at right side, just into printed image
