Scarce map of the State of Yucatan in Mexico, from Antonio Garcia y Cubas' monumental *Atlas Geographico, Estadistico e Historico de la Republica Mexicana*, the first atlas of the Mexican Republic.

Garcia Cubas' map of Yucatan is one of the earliest maps of the modern state of Yucatan published in Mexico. The surrounding text includes a wealth of information regarding Yucatan, including History, Climate, Agriculture, Minerals, Livestock, Commerce, Population and Itineraries.

Antonio Garcia y Cubas was Mexico's first great map maker and his work is highly sought after. This map shows the various regions within Baja California, including, towns, roads, rivers, etc. Only 300 examples of the atlas were reportedly printed and separate maps rarely appear on the market.

This is the first example of this map we have ever offered for sale and the only example we have seen on the market in over 20 years.
