Description:

Fine early edition of Brue's map of North America, published in Paris in 1828.

Excellent map of North America and the West Indies. Beautifully engraved on fine heavy paper with the embossed atlas seal of the publisher below the script title. Alaska is named as Amerique Russe and is still a bit misshapen.

The United States is shown with the northern border of Oregon Territory bulging upward well into Canada, reflecting the United States claims in that region, which became known as 54-40 or fight.

The individual state and territorial borders are shown up to the Mississippi River, with a large Arkansas Territory extending above Texas, which is still shown as a part of Mexico. The map is surrounded in a decorative keyboard border.
