Description:

Scarce map of the United States, showing a number of early and transitional territorial configurations, including the newly formed Mississippi Territory.

The map shows the disputed parts of Mississippi Territory (Spansih West Florida etc.) ambigously. Indiana Territory is directly below Lake Michigan, with Illinois Territory pushed far west of its true location, with no attempt to reconcile the location of Chicago on Lake Michigan.

Mississippi Territory is shown and includes Alabama. Misconfigured Ohio and and Michigan Territories. Louisiana is shown, as is the former Neu Orleans territory, which briefly existed during the Spanish and French control of the region. Masive Missury Territory.

Excellent detail, including forts, Indian Tribes, and other interesting details. Nice detail in Florida.
