Description:

Very rare panelled map of Africa from Piere D'Avity's Les Etats, Empires Royaumes...du Monde. The first derivative of the map was issued separately by Hondius in 1618. This example is based upon the second state of Janssonius' map of 1623. The later states of the map do not include the lower panel of images. The cartography is based upon the earlier maps of Jansson. The most noteworthy change in the map is the blank lower cartouche and the apparent misspelling of Africa. Neither Tooley nor Norwich list this map. Overall a gorgeous example of this exceedingly rare decorative map.
