### Description:

Nice full color example of Speed's rare scarce miniature Double Hemisphere of the World, from Speed's Epitome.

The map is noteworthy for its not showing California as an Island, one of the of the period to reject the myth. Massive unknown southern continent and conjectural land bridge connecting North America and Asia. Strapwork decorations and symbols of the elements in the corners.

Speed's Epitome is much rarer than the larger folio atlas and therefore this map is quite scarce on the market.
