Description:

Rare Probst edition of Seutter's map of America, with two spectacular cartouches.

A highly detailed and richly engraved map, showing California as an Island.

The map is packed with geographic detail, real and apocryphal. The Great Lakes are very unusually shaped. A number of mythical western places are shown. South America is much too wide. The Mississippi is considerably west of its proper course.

At the lower right, an extra credit is given to Johann Michael Probst, with the date of 1784. This is the first time we have ever seen this edition of the map.
