Description:

Rare separately published chart of Puerto Rico, published by the Spanish Hydrographical Office in Madrid, in 1842.

The map provides a fine depiction of the topographical features of Puerto Rico in the interior, as well as excellent coastal details.

Off shore shoals are shown, along with soundings, anchorages and other sailing details.

A nice example of this scarce chart, which appears quite infrequently on the market.

Detailed Condition:

Minor discoloration at centerfold
