## Mexico & Guatimala, with the Republic of Texas.

**Stock#:** 44465 **Map Maker:** Lizars

Date: 1838Place: EdinburghColor: Hand Colored

**Condition:** VG

**Size:**  $20 \times 17$  inches

Price: SOLD

## **Description:**

Scarce map of Texas, Mexico, Upper California and contigous parts of the Southeastern US, naming the Republic of Texas.

The present map is the only obtainable printed map to name the "Republic of Texas." The name appears both in the title and the body of the map as the Republic of Texas, making this both a unique and important map for Texas collectors. While a number of American and British map publishers issued maps of the region (both separately and in Atlases), none took the extra step of recognizing Texas as an independent nation in the tite of the map.

The map also bears a note stating: Note . . . The boundary between Mexico on the north and the United States is a line drawn from Cape Mendocino, (Lat.  $40^{\circ}$   $28^{\circ}$   $40^{\circ}$ ) Eastward to the Rocky Mountains. Top left: LXVI. Mines indicated by crosses.

## **Detailed Condition:**

Curious wash color style.
