Description:

Finely engraved large format map of the World, published in Paris by Vuillemin.

Includes a number of decorative vignettes and a marvelous depiction of the Icy Polar regions.

The present example is a rare separately issued example. While it turns up occasionally as an atlas map in the 1860s, this is the first example we have ever seen separately published and with such an early date.

Detailed Condition:

Dissected and laid on linen, as issued.
