Description:

Rare Lafreri School view of Florence, first published by Giulio Ballino in 1569.

Engraved by Paolo Forlani in Venice, this is one of the earliest obtainable views of Florence, pre-dating even the monumental work of Braun & Hogenberg in 1570.

The map includes a key locating 60 points of interest as well as 2 coats of arms.

A fine example of this important early view of Venice. The present example includes text on the verso and was most likely issued in Zaltieri's *De' Disegni Delle Piu Illustri Citta*.
