### Description:

Decorative and highly detailed map of a portion of the Gulf of Venice and Sea of Dalmatia, in the Hercag-Novi region of Serbia and Montenegro.

A remarkable engraving, with a striking large cartouche and unusual compass rose, along with a highly detailed topographical image of the region. The present example is an unusually strong dark impression, with wide clean margins.

Coronelli was possibly the best Italian mapmaker of his time. He made globes, including one 5 meters in diameter for Louis XIV. From Coronelli's rare *Atlante Veneto*, one of the most decorative and ornate of all 17th Century Atlases. The map exhibits the fine engraving style of this coveted Venetian Atlas.
