### Description:

Finely engraved map of America, showing California as an Island, from Moll's *Atlas Geographicus, or a Compleat System of Geography*.

The Strait of Anian is shown north of California, with a still hopeful prospect of a water route through "Parts Unknown" to the area north of Hudson Bay. The search for a Northwest Passage would continue for another 140 years before its final discovery in the middle of the 1850s.
