Description:

One of the Earliest Obtainable Detailed Plans of Bombay Harbor

Fine chart of Bombay (Mumbai), by one of France's leading chart makers of the late 18th Century.

The chart provides a very detailed view of the harbor complete with soundings, navigational hazards, and anchorages. The most attractive feature of the chart is the beautifully engraved prominent landmarks shown as they would be seen from aboard ship, including mountains, forts, houses, and churches.

One of the earliest obtainable large format maps of Mumbai.
