Description:

A very good example of John Reid's engraved map of the Province of Maine.

The map is drawn largely from Carey's map of Maine, by Samuel Lewis, which was issued the prior year. An excellent map, showing the national boundary, principal towns, mountains, rivers, islands and many other details.

John Reid's *American Atlas* was the second folio sized atlas published in the United States; it was originally issued to accompany Winterbotham's *Historical, Geographical, Commercial and Philosophical View of the United States*.
