**Date:** 1762  
**Place:** London  
**Color:** Uncolored  
**Condition:** VG+  
**Size:** 13.5 x 10.5 inches  
**Price:** SOLD

### Description:

Highly detailed map, showing the region between the Mississippi River and the Atlantic, extending from Virginia to the Great Lakes. This map appeared in the scarce English edition of the American Gazetteer, published in London. The map is based upon Mitchell's seminal map of North America published in 1755, drawing upon Mitchell for the newly revised course of the Ohio and configuration of the Great Lakes, among other features. The map is richly annotated, especially in the Ohio Valley and in the regions of modern day Illinois and Indiana, where no less than 8 separate annotations appear. The map also notes roads, rivers, mountains, lakes, towns, forts, Indian Settlements and a host of other important features. One of the best maps of the region west of the Allegheny Mountains published in English during time. An excellent post-French & Indian War map.
