only by Hayden's very rare separately published Snake River and Montana, and Wyoming Territories maps (Marcou & Marcou 630 & 629).

The map extends from Fort Bridger in the south to Yellowstone and the Big Horn Mountains.

Chart shows 15 classes of geology, the topography and trails in the northwestern part of Wyoming, including roads, stage stations, military posts, astronomical observation stations and boundaries of the Snake Indian Reservation. Area includes Jackson Hole, the Big Horn and Teton Mountains, and extends south to Fort Bridger and the Sweetwater Mountains.

Terrific detail of the newly formed Yellowstone Park.
