Description:

Impressive Chart of Park Island, Tsing Yi, and western Hong Kong Harbor.

A very detailed chart of the section of water west of Hong Kong Harbor. The chart was first published in 1908, based on the surveys of Commander C.E. Monro of H.M.S. Rambler, 1906, Captain W. Osborne Moore, R.N., 1893, and Captain Morris H. Smyth, 1902. It was updated with corrections from the Hong Kong Harbour Department surveys to 1933, and further updated to 1949.

The map features ubiquitous soundings and extremely detailed topography.

Stonecutters Island is shown in the lower right of the map. After reclamation, the island has become part of Kowloon.
