### Description:

Rare map of Cape Girardo from the English edition of Collot's work. Collot and Jean Baptiste Truteau explored the Mississippi and Missouri between 1794 and 1796. The work was completed in 1804, but delayed 20 years by the death of Collot. The work represented a significant step forward in the mapping of the regions explored. This is one of 23 maps which appeared in the Atlas volume, of which only 100 were printed in English. A complete example sold at the Siebert sale in 1999 for over \$100,000.00. The work is of extreme rarity and very important in the history of American Cartography.
