**Description:**

Detailed chart of a portion of the Coast of Peru, with contemporary annotations showing use at sea in 1872.

Includes seven profile views.

The present chart is based upon surveys on the coast of South America aboard the H.M.S. *Beagle* in 1836, during its second voyage.

The second voyage of *HMS Beagle* is notable for carrying the recently graduated naturalist Charles Darwin around the world. While the survey work was carried out, Darwin travelled and researched geology, natural history and ethnology onshore. He gained fame by publishing his diary journal, best known as *The Voyage of the Beagle*, and his findings played a pivotal role in the formation of his scientific
