## Nouveau Mexique et Californie

**Stock#:** 58652  
**Map Maker:** Mallet  
**Date:** 1686  
**Place:** Frankfurt  
**Color:** Uncolored  
**Condition:** VG+  
**Size:** 4 x 6 inches  
**Price:** SOLD

### Description:

Mallet's map of California is one of the most striking maps of California as an island, first published in Paris in 1683.

A unique projection, not really following either Sanson or Briggs. Shows a number of place names and a nice charting of the Channel Islands. An essential map to any California as an island collection.

One of only a few maps of California as an island that focus on just California.

### Detailed Condition:
