Description:

New York City and the Statue of Liberty

Nice example of Colton's rare panoramic bird's-eye view of New York City.

The map shows the city from the southwest, covering Manhattan, Brooklyn, and Queens as seen from high above Jersey City and Hoboken. The view extends from the Bronx to the Statue of Liberty and from Hoboken to Brooklyn and Governor's Island.

The view shows the Brooklyn Bridge (completed in 1883), the Williamsburg Bridge (then under construction), the Queensboro Bridge (still only proposed), and a bridge that was proposed, but never built across the Hudson to Hoboken at 59th Street.

Rarity

The view is very rare. We find no record of the view in Stokes or OCLC. We locate no auction records for the view.

Detailed Condition:

Cleaned and professionally conserved. Several expertly repaired tears.
