Description:

Antique Sea Chart of South Florida, the Florida Keys and the Bahamas

Rare mid 19th Century French Sea Chart of Florida and the Bahamas, based upon Edmund Blunt's 1847 chart *The Bahama Banks and Gulf of Florida*, which covers a significantly broader area. The present chart is on a larger scale and more focused on the region covered by the map.

The chart provides a remarkable treatment of the Florida Keys and extends from Baie De San Carlos on Florida's West Coast and Ile Hutchinson on the East Coast to Grand Abaco and Golfe D'Exuma and Providence (and the Northern coast of Cuba).

Place names in Florida include Fort Lauderdale, Fort Dallas, Fort Jupiter

Extensive details, including soundings and approximately 15 coastal views.

Rarity

The chart is apparently very rare. We are not aware of any other examples appearing at auction or in dealer catalogs.

OCLC locates 1 copy of the 1852 edition of the map (British Library) and no copies of this 1851 edition or any other edition of the map.
