Description:

Antique Map of the United States -- Early Indian Tribe References on the Mississippi River

Early French map of the United States, engraved by Tardieu.

An interesting map of the newly minted United States, showing the 13 original states, plus Vermont. The list of states also includes state capital cities, most of which are no longer capital cities.

While the map pre-dates St. Louis, the name *Peouarias* appears, an early reference to the Indian village which would give Peoria, Illinois its name, along with Caskakias (Kaskasia).

The present example differs from the first state with the removal of the * next to Vermont (and removal of the explanation below), and addition of Chicacas in west Tennessee.
