Description:

Early Appearance of Dallas!

A gorgeous example of Flemming's 4 sheet map of the United States, published in Glogau circa 1850.

The map includes a fine image of the early US territorial borders, Indian Districts, Forts, early routes of the Transmississippi explorers and other details.

Includes the various European colonies in Texas, including:

- Fischer's
- Mainzer Verein
- Castros

Many Indian tribes, forts, missions, roads, and other details are shown.

Includes a very unusual tomahawk shaped Indian Territory and massive Minesotah, Nebraska and Missouri Territories.

Excellent topographical details, some real, some conjecture. One of the great pre-Gadsden Purchase atlas maps. Expertly joined on linen.
