## The Ichnography of the Cities of London and Westminster and the Borough of Southwark

**Stock#:** 63926  
**Map Maker:** Owen  
**Date:** 1756 circa  
**Place:** London  
**Color:** Hand Colored  
**Condition:** Good  
**Size:** 16 x 8 inches  
**Price:** SOLD

### Description:

Early 18th Century Plan of London, published in 'The Natural History of England' by the scientist and instrument-maker Benjamin Martin.

This was part of the complete work 'General Magazine of Arts and Science' issued between 1756 and 1761.

The map's title appears in a square table at top right. Built-up areas are stippled within the boundaries of the City of London, and crosshatched elsewhere.

### Detailed Condition:

Restoration, with some loss of image expertly filled along the margins.
