Description:

One of the First World Maps to Show Hawaii

Double hemisphere map of the world, featuring extensive table and text below, published by Homann Heirs.

An early World map to locate Hawaii, the map includes the tracks of Goree's voyage in 1780, Clerke's Voyage in 1779, and Cook's voyage in 1777-78.

The coastlines of New Zealand and Australia are shown, albeit quite inaccurately so. The Northwest Coast of America is also unusual, pre-dating La Perouse and Vancouver, among others.

Detailed Condition:
Old repaired tear and soiling at top of image.
