**[Phuket, Phang Nga Bay, Krabi and Northwest Coast of Sumatra] A Particular Plan of
Junk-Seilon and the Parts Adjacent**

Stock#: 64691
Map Maker: Herbert
Date: 1760 circa
Place: London
Color: Outline Color
Condition: VG+
Size: 22 x 30 inches
Price: \$1,200.00

Description:

Extremely rare English sea chart, covering a portion of Southern Thailand and northwestern Sumatra.

At the top right, the map provides a detailed image of the area around Junk Seilon Island, now known as Phuket, along with the adjacent Phang Nga Bay and coastline of Krabi Province.

The primary map covers a significant portion of the West Coast of Sumatra, centered on Pini Island and extending well to the south of Padang.

A note at the right of the map states:

The large Islands which lie off this part of Sumatra are not incerted till a more particular Plan

*can be procured. This Chart being drawn chiefly for those who have occasion to Sail very near
it. The Lines shew the Tracks which Ships usually make.*

Herbert's chart of the region is the first broadly accurate British sea chart of this important region, marking a milestone in the revival of hydrography sponsored by the East India Company.

The English mapmaker William Herbert (1718-95) traveled to India in about 1748 as a purser's clerk. Back home in the early 1750s, he set up a map and print shop on London Bridge, and in 1758, with the encouragement of the East India Company, he introduced a new pilot guide, *the New Directory for the East Indies*. Herbert gathered superior sources than those used in Mount & Page's *The Third Book*, consulting such works as Manneville's *Neptune Oriental*, as well as the navigator William Nicholson and the cartographer Samuel Dunn.

Rarity

The chart is extremely rare. This is the first example we have ever seen on the market.
