Description:

A German Map of the Republic of Texas

Detailed map of the Republic of Texas at the start of the Mexican War.

The massive stovepipe configuration is shown here, extending to Wyoming in the north, the Rio Grande in the west and the Red River and Mississippi River in the west. Includes early Indian territory regions, forts, outlines for the early Texas counties, and important routes of explorers, including Long, Josiah Gregg, Pike, and Fremont, as well as early roads and settlements.

A very unique set of independent borders, probably the only map to show this configuration.

The map is based upon Emory's seminal 1844 map of Texas, the prime US Government mapping of Texas during its period as a Republic.
