### Description:

Fascinating map graphic, illustrating migration to the United States and the Westward expansion, published by Pictorial Charts, under the direction of G.J. Cons.

As noted in the biography below, G.J. Cons was one of Europe's leading map educators, who became famous for his work on map graphics. The map inadvertently identifies G.T. Cons, M.A.. (should be G.J. Cons).

This lively graphic illustrates migration over the prior 100 years from Europe to America, coupled with information on demographics and distribution.
