### Description:

Scarce engraved town plan of Stockholm and environs by one of Sweden's greatest mapmakers, Georg Biurman.

Georg Biurman (1700-1755), was a Swedish surveyor and engraver at the old land survey office in Stockholm. He became known for a wide range of detailed mapping over Stockholm and Sweden as well as a travel guide that was published in 1742. In the 1730s, Biurman became the head of the printing company that was established at the land survey at Västra Trädgårdsgatan 2 in Stockholm.

The map is a part of a work by Kongl. Landtmäteri Contoiret and its associates published in the years 1739-1793, covering parts of Sweden, Finland and the Baltic States.

Biurman also produced a more specific map of Stockholm which we have had once before: <https://www.raremaps.com/gallery/detail/55264>

The map is quite rare, this being the first time we have had the map.
