Description:

Fine example of Chester Newell's early map of the Republic of Texas, published in 1838.

The map shows all of Texas north to the Red River, providing an early look at the Republic, including a fine accounting of its early roads and settlements. The Alamo is noted just east of San Antonio, as are a number of other early towns.

The map shows the area from New Orleans westwards to about 102 degrees longitude, and south to the Rio Grande. There is considerable detail devoted to the settlements from Goliad north to Austin, and then east to Liberty. The map locates the 7 temporary capitals (San Felipe de Austin, Washington-on-the-Brazos, Harrisburg, Galveston Island, Velasco, Columbia, and Houston).
