Description:

Gorgeous example of Carey's map of Virginia, one of the best large format maps of the state to appear in a Commercial Atlas. The map is attractively hand colored by counties and shows, towns, roads, mountains, rivers, lakes, islands, bays and a host of other early important details. Carey's General Atlas published in 1814 was the first American Atlas to be offered for sale with hand coloring on the maps. A fine wide-margined example.
