Description:

Nice example of Thomas Kitchin's scarce map of the British Colonies, extending west to include the Mississippi River Valley, half of Texas and the lower Missouri River Valley.

The British colonies are shown immediately after the conclusion of the French & Indian War, with Virginia, the Carolinas and Georgia extending to the Mississippi River, but not Pennsylvania. The Province of East Florida and the Province of West Florida are shown, with Florida depicted as an archipelago.

West of the Mississippi River, the Country Full of Mines is shown south of the Missouri River and Parts Undisclosed north of the known extent of the Mississippi. Many early Forts and Indian tribal regions are noted. The R & Port Chicagou appears, as does Quadoghe at the southern point of Lake Michigan.

This is an unrecorded example, which does not include a printer's attribution below the neatline, unlike the editions noted in McCorkle (766.1).

Detailed Condition:

Minor mat stain in the blank margins. Verso with brown paper tape at the edges where previously framed. Minor retouching in some of the blank areas of the ocean, but without any damage or loss.
