Description:

Nice full-color example of this decorative view of the Escorial, the Royal Palace of Phillip II, King of Spain, from Ortelius's *Theatrum Orbis Terrarum*, published by Jan Baptiste Vrients.

The engraving was based on a drawing made by Juan de Herreira (1530-1597), which had been engraved by the Flemish artist Pierre Peret (1555-c. 1625) who lived in Spain and was a disciple of Gerard de Jode.

The image made it into *Theatrum Orbis Terrarum*, in 1603, after Johann Baptist Vrients had taken over the publishing of the book following Ortelius's death.

States

According to Van Den Broecke, this is the third state of the engraving:

in the 1624Parergon Latin edition ESCORIALI has been changed into ESCVRIACO. The place names "Torre del Pardo" and "Fresneda" have been moved to mid top, C1. "Torre de Lodones" was added in C1.
