Description:

Scarce 1552 edition of Munster's France, based upon the work of Claudius Ptolemy.

The 1552 edition is the only edition which includes the extra set of gradient numbers along the 4 sides of the map.

Shows a remarkable depiction of the region, as known in Ptolemy's time. Munster's *Geographia* (1st issued in 1540) and *Cosmographia* (1548) are the most important and widely copied geographical works of the middle part of the 16th Century and represented for most Europeans the first accessible imagery (maps and views) of the World.
