Description:

Scarce pre-Civil War map of Philadelphia, colored by counties and townships. Shows towns, roads, mountains, rivers, railroads, lakes, etc., which appeared in Charles Morse's *General Atlas of the World.*

Unlike most maps in Charles Morse's Atlas which are simply updated copies of maps from Morse & Breese's *North American Atlas* of 1845 , the map of Iowa is an entirely original production, replacing the Iowa and Wisconsin map which appeared in the 1845 work.
