Description:

Attractive full color example of Bellin's large format map of the Philippines, one of the best large format maps of the period. Excellent topographical detail throughout. Includes a remark setting forth how the map was derived from a spanish map by R.P. Pierre Murillo de Velarde prepared in 1744 and providing a history of the islands dating to the mid 16th Century. A few short tears in the margin which have been archivally repaired, else a fine example of this increasingly rare map. Quirino 91. An essential map for Philippine collectors.
