### Description:

Interesting set of World maps, highlighting the various major air travel route around the globe.

The map employs 4 different projections to illustrate the various air routes of the period, which are shown as follows:

- Principal World Air Routes (thick red line)
- Secondary World Air Routes (thin red line)
- Other Air routes (thinnest red line)

The 4 projections are:

- "Nordic" Projection, designed by John Bartholemew. An Oblique Area-true Projection designed to give optimum representation to Europe and to routes in the Atlantic, Arctic and Indian Ocenas.
- North Polar Basin - Gnostic Projection
- "Nordic Projection - oriented to show the North Pacific at the center
- The Antipodes - Zenithal Equidistant Projection
