### Description:

#### *Wyoming in an Early Configuration*

Interesting early map of the region, which includes Montana with only 8 counties and no counties in Wyoming, which does not include the northwestern section of the territory, which is still part of Montana.

Upper & Lower Yellowstone Lake are shown, along with the Falls.

The map includes significant updating from earlier editions in Wyoming and Montana, including rivers, forts, towns, mountains and a host of other details.

### Detailed Condition:
