**Description:**

Terrifying map printed shortly before the invasion of Poland and the start of the Second World War in earnest, showing Germany's global colonial ambitions. The primary map shows a bright red Germany imposed the rest of Europe, with the Sudetenland already a part of an ever-growing Germany and the rest of Czechoslovakia indicated as two "protectorates."

An inset map shows German interests further afield, with colonies depicted in Africa, China, and the South Pacific. A legend at the bottom names thirty-nine provinces of Germany.
