**Description:**

Nice example of Peter van der Keere's (Petrus Kaerius) map of the Low Countries in ancient times.

Scarce and superb map based on the cartography of Ortelius, from the *Parergon*. Graphically engraved to illustrate the forested land with a few cities and ancient place names taken from classical sources.

The map is elaborately adorned with three cartouches, a sailing ship, and an interesting scene showing 2 natives of the region.
