### Description:

This mid-20th century folding map of New York, published by Geographia, is a comprehensive guide to the city, featuring four maps in one. It is designed to provide users with the most up-to-date information to navigate and explore New York City with ease.

1. The first map is a detailed street map of Manhattan, which includes transit lines and house numbers. This map helps users find specific addresses and navigate the city using public transportation.
2. The second map is a subway and elevated train (L) map covering Manhattan, the Bronx, Brooklyn, and Queens. This map provides users with a clear understanding of the city's extensive subway and

in One**

elevated train network, allowing them to plan their journeys efficiently.

3. The third map is a large-scale map of Midtown Manhattan, focusing on the central business and tourist district. This map offers a more detailed view of the area, making it easier for users to find points of interest, businesses, and attractions.
4. The fourth map is a large-scale map of the Financial District in Manhattan, home to Wall Street and many financial institutions. This map provides a detailed layout of the area, enabling users to navigate the bustling financial center with ease.

Together, these four maps offer a comprehensive and user-friendly guide to New York City, making it an essential tool for tourists, residents, and business travelers during the mid-20th century.

**Detailed Condition:**

Folding map printed on both sides. Some wear and tears, especially in the lower right corner, but also at fold intersections. Fair to Good.
