### Description:

Fine example of the first edition of Anthony Finley's map of Arkansas and Missouri, being one of the earliest separately issued regional maps to show Arkansas in its "double-wide" configuration (including most of Oklahoma).

A number of counties in the western part of Missouri are not yet shown. The western part of Arkansas Territory names the early Indian Nations of the Choctaws, Creek, Cherokees, Osages, and a number of other tribes further to the north.

The Military Bounty Lands in Chariton County Missouri are shown. Little Rock appears and a number of early roads are noted.

Many Indian Settlements and Missionary settlements are noted. A statistical table includes county data on the populations (Black, White, and combined) of the counties, with a separate line item for Foreigners not nationalized and persons engaged in Agriculture, Manufacturing, and Commerce.

A nice example of this scarce map.

### Detailed Condition:

Original hand-color. Very minor soiling.
