Description:

One of the best large format maps of Mexico, Texas and Upper California to appear in a commercial atlas in the 1850s.

Texas is now a part of the US, with dozens of place names shown, as well as the road from Natchtoches to the Laredo area. Substantial detail throughout the Rocky Mountains, incorporating Humboldt, Pike and Long. The west reflects nicely updated post-Fremont cartography, with several early roads noted and excellent up to date detail, especially in the Gold Regions of California. The route to the Gold Fields via Salt Lake and route from St. Louis to Santa Fe are shown.

This late edition of Lapie's map of the Southwest rarely appears on the market. It reflects a tremendous amount of revision from the early editions and is a worthwhile addition to a Southwestern & California map collection.
